Professional Summary

Full Stack Developer with 4+ years of experience building scalable eCommerce platforms, admin dashboards, and API-driven web applications using React.js, Laravel, and Java Spring Boot. Skilled in designing RESTful APIs, microservices architecture, authentication systems, and modern frontend component architecture. Strong experience with MySQL, PostgreSQL, Docker, CI/CD, and performance optimization.

Technical Skills

Frontend: React.js, TypeScript, JavaScript, Redux Toolkit, Material UI, Tailwind CSS, HTML, CSS
Backend: Java Spring Boot, Laravel, Node.js
Databases: MySQL, PostgreSQL
Architecture & APIs: REST APIs, JWT Authentication, Webhooks, Microservices, MVC
DevOps & Cloud: Docker, CI/CD, AWS Hosting
Tools: Git, Postman, Figma, Jira
CMS & Platforms: Shopify, WordPress

Experience

Web Developer — Vezire Technologies   Mar 2024 – Present
Punjab, India

- Developed enterprise applications using **Spring Boot, PostgreSQL, and React.js**.
- Designed and integrated RESTful microservices with React-based admin dashboards.
- Built reusable UI component systems using Material UI for scalable frontend architecture.
- Implemented JWT-based authentication, API security, and role-based access control.
- Migrated legacy dashboards to modern React architecture, improving maintainability.
- Contributed to Dockerized deployments and CI/CD pipelines for automated releases.
- Optimized application performance, database queries, and scalability.

Web Developer — Protolabz eServices   Nov 2021 – Feb 2024
Punjab, India

- Developed and customized **Shopify and WordPress** websites for client businesses.
- Built full-stack applications using **Laravel, MySQL, and React.js**.
- Designed REST APIs and integrated payment gateways, shipping services, and third-party APIs.
- Converted Figma/XD designs into responsive React interfaces.
- Optimized application performance, SEO, and database efficiency.
- Worked in MVC architecture and modular backend structures.
- Used Git-based workflows and participated in deployment processes.

Project Experience

Multi-Vendor eCommerce Platform (React, Laravel, REST APIs)
Developed vendor dashboards, product management modules, and order workflows with API-driven UI architecture. Integrated payment gateways and shipping services while building reusable UI components.

Enterprise Admin Dashboard System (React, Spring Boot, PostgreSQL)
Built admin panels connected to microservices for order, user, and analytics management. Implemented authentication, API integrations, and modular frontend component design.

Education

GNA University, Phagwara
B.Tech in Electronics and Communication Engineering   2017 – 2021
