KHUSHWINDER

Frontend Developer — Admin Dashboards & eCommerce Frontends (React • TypeScript)

✉ Khushwinder.dev@gmail.com — in khushwinder-dev — ⬡ Khushwinder-Dev — ☎ +91-97800-32334

Professional Summary

Frontend Developer with 4+ years of experience building scalable, high-performance web applications and admin dashboards using **React.js, TypeScript, and modern UI architecture**. Strong expertise in component-driven development, state management, API integration, and performance optimization. Experienced in translating complex business requirements into responsive, user-friendly interfaces. Backend knowledge in Spring Boot and Laravel enables seamless collaboration across full-stack teams.

Technical Skills

Frontend: React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Context API, Material UI, Tailwind CSS, HTML5, CSS3, Responsive Design
UI Engineering: Component Architecture, Reusable UI Systems, Form Handling, Client-side Validation, Performance Optimization
API Integration: REST APIs, Axios/Fetch, JWT Auth Flows, Webhooks
Backend (Supporting): Java Spring Boot, Laravel
Databases: MySQL, PostgreSQL
DevOps & Tools: Git, Docker, CI/CD, Postman, Figma, Jira
Platforms: Shopify, WordPress

Experience

Frontend Developer — Vezire Technologies   Mar 2024 – Present
Punjab, India

- Developed scalable enterprise frontends using **React.js, TypeScript, and Material UI**.
- Designed reusable component libraries and UI systems for admin dashboards.
- Integrated complex REST APIs and microservices into responsive React applications.
- Implemented authentication flows, protected routes, and role-based UI rendering.
- Optimized rendering performance, state management, and API data handling.
- Migrated legacy UI systems to modern component-driven React architecture.
- Collaborated with backend teams to define API contracts and improve UX consistency.

Frontend Developer — Protolabz eServices   Nov 2021 – Feb 2024
Punjab, India

- Built responsive web applications using **React.js, JavaScript, and modern CSS frameworks**.
- Converted Figma/XD designs into pixel-perfect, mobile-friendly user interfaces.
- Developed reusable components and modular UI structures.
- Integrated payment gateways, shipping APIs, and third-party services into frontend flows.
- Improved page performance, SEO structure, and user experience.
- Worked closely with backend APIs built in Laravel and MySQL.

Project Experience

Enterprise Admin Dashboard System (React, TypeScript, Material UI)
Designed a modular dashboard UI connected to multiple microservices. Built reusable data tables, dynamic forms, filters, and analytics views with optimized state management.

Multi-Vendor eCommerce Platform (React, REST APIs)
Developed product management interfaces, vendor dashboards, and order workflows with reusable UI components, validation systems, and API-driven architecture.

Education

GNA University, Phagwara
B.Tech in Electronics and Communication Engineering   2017 – 2021
